

5 February 1973

STAT

Thank you for your kind note of 2 February and the overly generous comments therein. Thank you also for taking the time to come to the ceremony. I was quite sincere in expressing the view -- which I hold strongly -- that I was actually being commended for the work of many other people over the years. You certainly figure in this number. I enjoyed our professional association very much and greatly appreciated your many contributions to the work of this Staff and to the Agency's total Indochina effort.

With warm regards,

George A. Carver, Jr.
